

As a resident of Tucson, K-Love serves our community by providing positive and encouraging music, news, uplifting comments as well as much needed prayer for listeners, their families and our government. If K-Love were to be displaced by an LPFM our community would suffer by not having access to such positive and encouraging broadcasting. My family and I have come to rely and depend on it for wholesome, family-oriented programs. The service K-LOVE provides is vital to the community at large for spiritual encouragement, renewal on a daily basis, and having an alternative to listen to rather than shock-jock type fare that would harm the innocence of our children. K-LOVE is perfect for the entire family to listen to and appeals to many, many ethnic groups here in Tucson. Thank you for your consideration in this matter.
